Craig Clark

SAVING ENERGY: PRIORITISING YOUR ACTIONS
Craig Clark – Energy Consultant

Craig Clark is an energy consultant, who lives in Kinver and is a member of Kinver Climate Action Group. He's always been passionate about energy efficiency and sustainability, and now wants to give back to the local community by helping residents and businesses reduce their carbon footprints, and save on the energy costs that affect us all. He's leading our project on finding cost-effective measures to help local organisations cut their energy bills.

Craig will talk on prioritising cost-effective actions to cut our energy bills and carbon footprint.

Zoe Robinson, Keele University

THE RENEWABLE FUTURE

Zoe Robinson, Keele University

Zoe Robinson is Director of Education for Sustainability, at Keele University.

Zoe will talk about how the growth in renewable energy will change the way we use and distribute electricity. The current grid isn't designed for top-down distribution, and will need to be redesigned for scattered local energy sources.
